Message From the Director

The UC Davis C-STEM Center aims to close the achievement gap by broadening participation of students traditionally underrepresented in computing and STEM fields and to develop students' computer-aided problem-solving skills through engagement in real-world STEM problems. Through cutting edge research with funding from the National Science Foundation, the C-STEM Center, in collaboration with our industry partners, has developed innovative educational computing and robotics technologies for K-14 hands-on learning. These technologies are implemented in classrooms and afterschool programs around the state, culminating in the annual C-STEM Day, which includes the curriculum-based RoboPlay Competition and Math Programming Competition.

C-STEM Day is an opportunity to further engage students in project based team activities and to showcase their accomplishments and creativity in not only STEM topics, but also in writing, art, music, and film productions.

The RoboPlay Competition brings together student teams to participate in a series of challenges that require the integration of creativity, programming, robotics knowledge, collaboration and critical thinking.

The Math Programming Competition provides students in secondary schools an opportunity to demonstrate their understanding of mathematics through real world programming applications.

By continuing to successfully implement the C-STEM curriculum in classrooms and after school programs and by participating in the annual curriculum-base C-STEM Day competitions, we inspire students to pursue computing and STEM related careers and post-secondary study.

I would like to thank all of our participants for their hardwork, including the teachers and students. I would like to express my gratitude and deep appreciation to all of our volunteers for organizing this event, especially our two regional coordinators, Heidi Espindola at the UC Davis site, Merry Kim in Orange County, and also Rex Schrader and other HP engineers who have worked tirelessly creating the online scoring system and the challenge tasks for the RoboPlay Challenge Competition. Thank you also to all of our sponsors for making this C-STEM Day event possible.

Dr. Harry Cheng
C-STEM Center Director

NEW! C-STEM is now an option for new undergraduate applicants to select as a UC approved educational preparation program, commencing fall 2015 for all UC campuses. C-STEM student and team awards are now recognized in the UC admissions process as achievements that have explicitly prepared students for college and career.

C-STEM Day Schedule:

May 31, 2014

Time	Event	Location*
7:30am-8:30am	Registration and Setup for RoboPlay Challenge Competition	1st Floor
8:30am-8:40am	Welcome and Introduction	6011
8:40am-9:00am	RoboPlay Challenge Competition Introduction	6011
9:00am-12:00pm	RoboPlay Challenge Competition Problem Solving	As assigned
12:00pm-12:45pm	Lunch Break	
12:45pm-3:45pm	RoboPlay Challenge Competition	6011
3:45pm-4:00pm	Break	
4:00pm-5:00pm	Awards Ceremony: <ul style="list-style-type: none"> • C-STEM Awards of Achievement • C-STEM Awards of Excellence • C-STEM Scholarship 	<ul style="list-style-type: none"> • RoboPlay Video Competition Winners • RoboPlay Challenge Competition Winners

*all room locations are located in the UC Irvine Donald Bren School of Information & Computer Sciences.

Organizer: UC Davis C-STEM Center

Co-Organizer: Coastline ROP

Participants & Partners: Coast Community College District, Coastline ROP, CTEp, Fairmont Schools, Huntington Beach Union High School District, ICT/DM Sector Navigation Team, Irvine Unified School District, Newport-Mesa Unified School District, Orange Unified School District, Orange County Business & Community Partnerships, Saddleback Valley Unified School District, Foothill High School, Saddleback College, Santa Ana Unified School District, University of California Irvine School of Information & Computer Sciences, Vital Link

Santa Ana High School	Tappa	19	G	10:40 - 10:55 11:40 - 11:55	12:45 - 1:00 / 1:45 - 2:00 / 2:45 - 3:00

Overview

General Rules

1. You have 10 challenges to do in any order you like. Successful completion of each challenge earns your team points. The goal is to get as many points as possible.
2. The challenges must begin at one or more of the starting zones unless stated otherwise.
3. Teams may bring as many laptops as they have students to the competition and kept in their practice area (pit).
4. Only one laptop may be used at the competition table.
5. Use of other electronics during the competition, including other computers, calculators, cell phones, and other computing devices is not allowed.
6. Teams cannot use custom-made parts.
7. All challenge tasks must be completed using a computer program (no tilt drive or copy cat). Programs for controlling the robots must be written in Ch from SoftIntegration, Inc.
8. There will be no internet access during the competition. If a team is caught using the internet during the competition, the team will be disqualified.
9. Once the competition has begun, the teams may speak to the Judges for clarification on problems, but should not talk to anyone else outside of their team.

Practice Information

1. All teams will be provided a designated practice area (pit) to place their practice board.
2. You are given two 15-minute practice periods to practice on the official board between 10am and noon. (15 minute periods can be found on the RoboPlay Competition schedule page.)
3. Each 15 minute period starts and ends when specified in the schedule. You will not be given 15 minutes from when you arrive. Please be prompt.

Competition Information

1. You are given three 15-minute competition periods to compete on the official board between 12:45pm and 3:45pm. (15 minute periods can be found on the RoboPlay Competition schedule page.)
2. In between each team's run, there will be a five minute passing period.
3. No robots may be run on the competition board during the five minute passing period.
4. Any challenge that is on-going when your 15 minute period ends will be immediately stopped and points will be calculated.
5. You are allowed to attempt each challenge as many times as you like within the allotted competition time.
6. If you attempt a challenge multiple times, only the points from the highest scoring run will be kept.
7. Challenges may not be "chained together" meaning you cannot do two challenges simultaneously with the same program.
8. Teams are responsible for setting up the board for each run of each challenge.
9. Teams may not use more than five I-bots and one L-bot simultaneously.

Reminders for Students

General

- Measure everything with a measuring tape. Don't trust the given dimensions to be completely accurate.
- Read how assignments are scored to figure out the best strategy to get points.
- Ask questions if you are unclear about something.

Assigned Boards

- These will be the boards you will practice on and compete on.
- Make sure you know where your assigned board is at all times.
- Refer to diagram given or ask someone.

Practice/competition times

- 15 minute practice/competition times will be marked by a whistle being blown.
- Arrive 5 minutes early for your allotted practice/competition time and stand in the designated waiting area.
- Refer to packet if you don't know when your practice/competition times are.
- Keep your name tag on at all times. You will need it to gain access to the board during your 15 minute period as well as to your pit area.

Challenge Materials

Each team will have the following parts to complete the challenges.

Part	Quantity	Recommended/Necessary Accessories
Linkbot-I	5	Protractor
Linkbot-L	1	Writing Utensils
Snap Connector	14	Compass
Caster	2	Timer/Stopwatch
3.5" Wheel	8	String
Bridge Connector	2	USB flash drives
Gripper	1	Ruler & Measuring Tape (min. 8 feet)
Cube Connector	1	Extension Cord
Soccer Scoop	2	Skiva PowerFlow Four Port
Hacky Sack	1	USB Charger (Qty: 2)

Definitions and Common Terms

Whole Inch

A distance/measurement rounded down to the nearest inch.

Examples:

- 3.75 inches = 3 whole inches
- 1.95 inches = 1 whole inch
- ½ inch = 0 whole inches.

Nearest Point

The nearest point is a measurement taken from the nearest edge of the robot to the reference point by the shortest straight line distance. The measurement will be taken by placing a measuring tape on the table under the bot and placing a pipe on top of it, against the nearest part of the bot down to the tape.

Pipe Moved

Pieces of pipe are used as obstacles and pylons for some challenges. These pipes are placed on dots on the board. A pipe will be considered moved if it is knocked over or the dot is visible around the outer edge of the pipe.

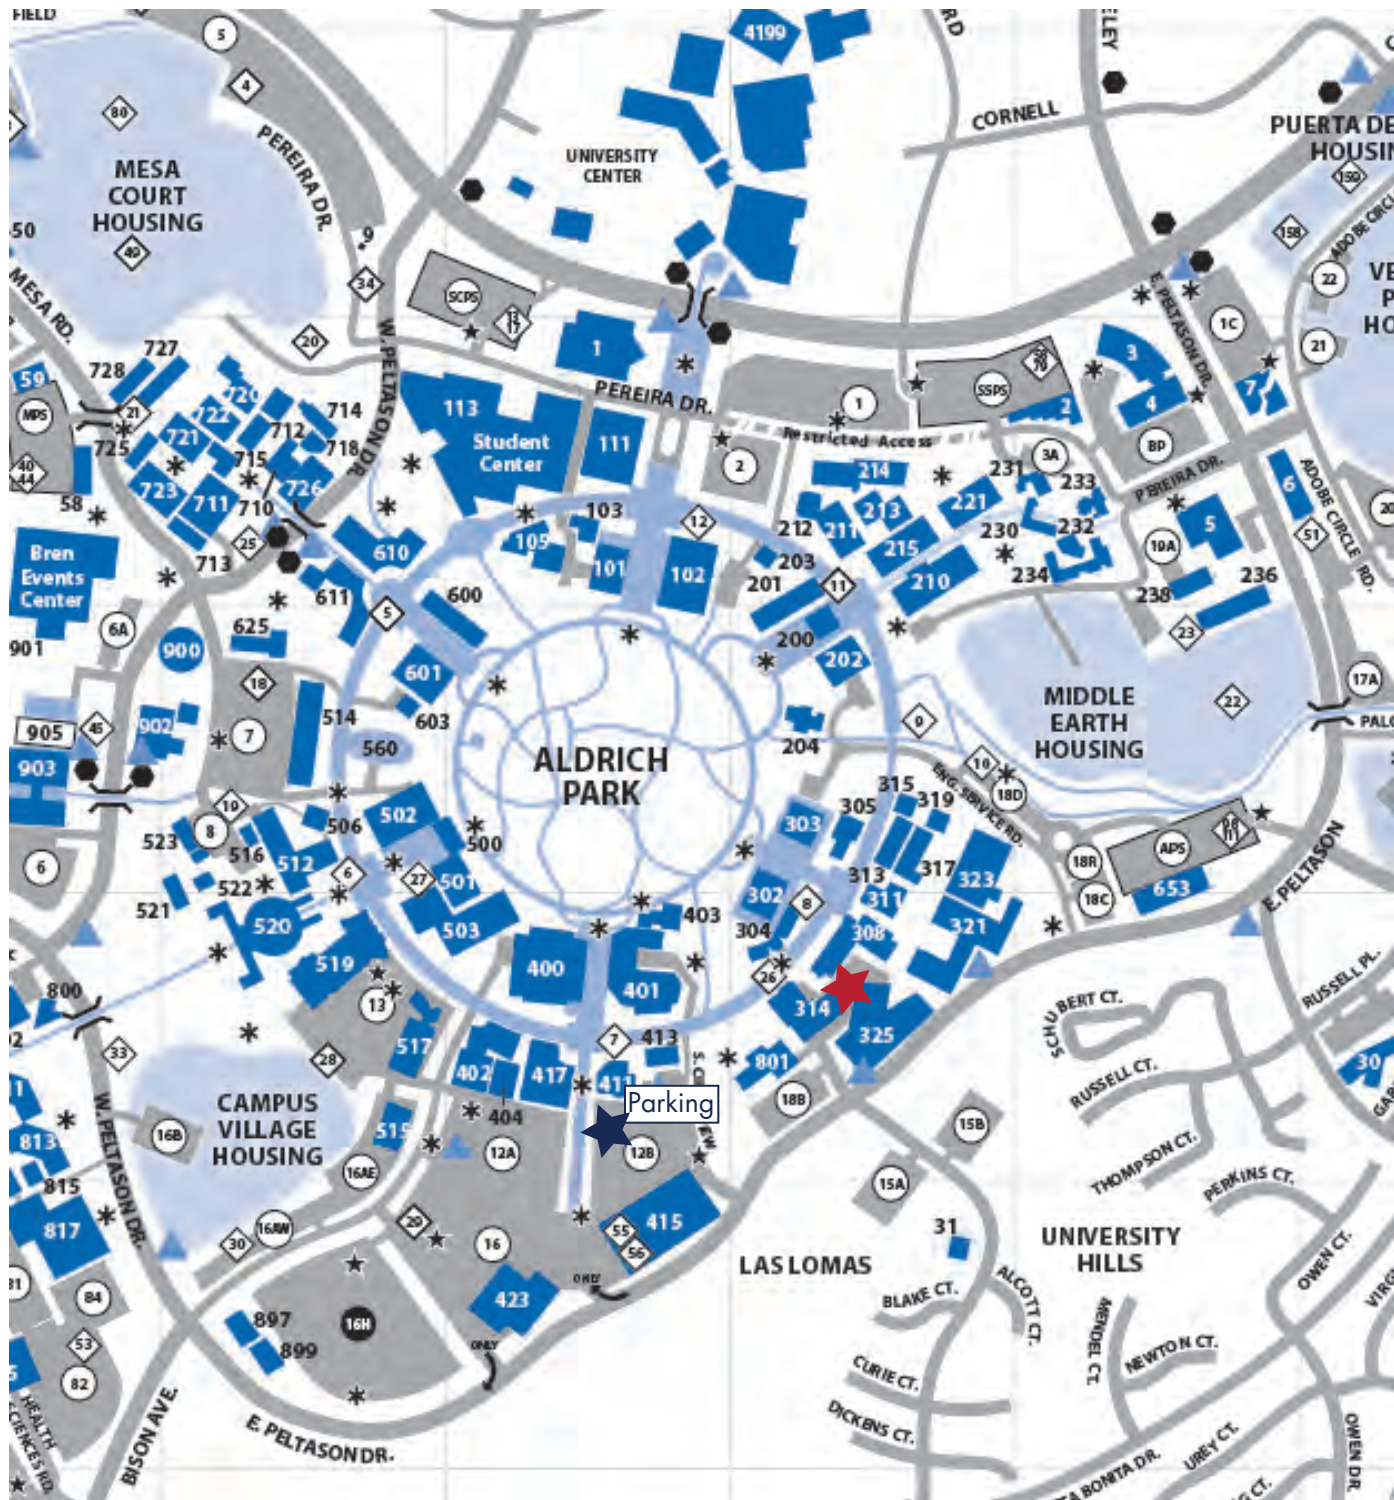

Same Time

For the purposes of scoring, events which happen within one second of each other shall be considered the same time.

Overview of Event Locations

- Donald Bren Hall (314): Location of Event

ICT Project Orange County: C-STEM

Participating Middle School, High School/ROP and College Instructors

Dennis Ashendorf (Math/Science) - Back Bay High School
Peter Selby (Physics) - Corona del Mar High School
Jackie Verona (Physics) - Corona del Mar High School
Daniel Leedy (Math) - Corona del Mar High School
Mark Smith (Computer Programming/Math) - Costa Mesa High School
Todd Metcalf (Math) - Ensign Intermediate School
Sean Glumace (Digital Media Arts) - Golden West College
Renah Wolzinger (Digital Media Arts) - Golden West College
James Tellier (Math/Technology) - La Paz Middle School
Judy Baca (Digital Media Arts) - La Paz Middle School
Marilyn Cunneen (Digital Media Arts/Video Game Design/Virtual Enterprise) - Marina High School
Greg Miller (Math) - McPherson Magnet School
Glen Warren (Technology/Information Literacy) - McPherson Magnet School
Shannon Duncan - McPherson Magnet School
Andres Dominguez (Math/Computer Science) - Newport Harbor High School
Debbie Pipes (Math) - Newport Harbor High School
Kimberly Hermans (Computer Programming/Math) - Northwood High School
Tran Tran (Math) - Orange High School
Shane Tappa (Engineering) - Santa Ana High School
Terry Kling (Technology/Library) - TeWinkle Intermediate School
Yassi Motamed (Math) - TeWinkle Intermediate School
Hali Kessler (Digital Media Arts) - University High School
Eric Shulman (Math) - University High School/Irvine Valley College
Minh Vu (Engineering/CAD) - Valley High School

Acknowledgements

A very special thank you is extended to
Coastline ROP Board of Trustees:

Dolores Winchell, Bonnie Castrey, Lauren Brooks, Tammie Bullard and Martha Fluor
Darlene Le Fort, Coastline ROP Superintendent, and
Carol Hume, Coastline ROP Assistant Superintendent
for their support of the ICT-Project Orange County: C-STEM and its success.

Our appreciation and recognition of the following individuals who believe in the importance of Computing,
Science, Technology, Engineering and Math and in the power of innovation and collaboration to create
opportunities for students in Orange County:

Gustavo Chamorro, ICT/DM Deputy Sector Navigator
Jeff Farr, Foothill High School
Julie Flapan, University of California, Irvine
Debra Friedman, Saddleback Valley Unified School District
Chris Harrington, Center for a New California
Patsy Janda, University High School
Kathy Johnson, Vital Link
Jillian Johnson-Sharp, CTEp
Merry Kim, Coastline ROP
Maria Lepe, Digital Media Center
Connie Mayhugh, Huntington Beach Union High School District
Alisa McCord, Orange County Department of Education
Laura Ott, Saddleback Valley Unified School District
Gary Page, California Department of Education
Tracy Parker, Coast Community College District
Kumar Ramajayam, Mathobotix
Debra Richardson, University of California, Irvine
Dejah Swingle, Coast Community College District
David Turner, Community Member
Keith Tuominen, Irvine Unified School District
Michael Vossen, Newport-Mesa Unified School District
Peggy Webster, Newport-Mesa Unified School District

Thank you to all Coastline ROP, Newport-Mesa Unified School District Office of College and Career Education,
UC Davis C-STEM Center staff and UC Irvine Donald Bren School of Information and Computer Sciences staff,
volunteers and participants in the first C-STEM Day in Orange County.
